Public Comment/s for Draft Malaysian Standard (DMS) on “Laminated bamboo for general use - Specifications”

29 NOVEMBER 2018 (THURSDAY), PUTRAJAYA MARRIOT HOTEL, SERDANG

- ◆ This DMS was developed by the Working Group on Laminated Bamboo, under the supervision of Technical Committee on Bamboo and Rattan. Both committees under the authority of the Timber, Timber Products and Timber Structures Industry Standards Committee.
- ◆ This DMS establishes requirements for the specification of laminated bamboo for general use. This standard includes requirements for the bamboo strips, dimensions and tolerances, grades, glue bond, lay-up (construction), and marking. Products specified under this standard are used for indoor applications or semi-outdoor (under the shade), provided that the products are not exposed to wet condition for a long period of time.
- ◆ Public Comment is an important stage in the Malaysian Standard development process. It allow for submission of comments on the draft from stakeholders and industries. We welcome your thoughts and ideas on these standard for a better FUTURE.
- ◆ Draft MS for public comment can be downloaded from MTIB websites (sda.mtib.gov.my) at no charge.

Admission is FREE
